

Subscribe or resync folders to view copied mail

Outlook users

Highlight by clicking once on the Inbox folder

Click Tools from the menu bar.

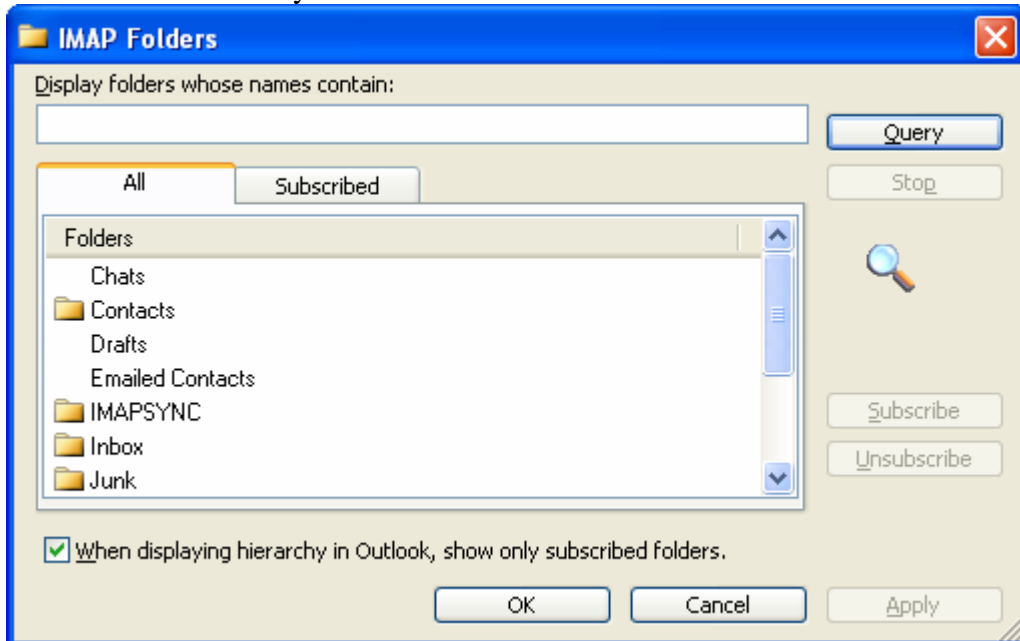

Click IMAP folders

A new dialogue window pops up.

Click Query.

From the results in the middle of the window select the folder you wish to view.

Click Subscribe for any folder that does not show a folder to the left of it.

Any folder missing is for you to choose to view or not view.

When done select Apply.

All the moved folders will show up in Outlook.

Eudora Users

Open the Mailbox window

In Windows, simply right click on the <<Dominate>> mailbox and re-sync folders. The folders will just appear under the <<Dominate>>.

Mac Eudora Click on the <<dominate>> mailbox

at the bottom of the Mailbox window, click the mailbox icon drop down and select refresh mailbox list.
