"CLASS RESTRICTION: Your class (freshman, sophomore, junior, senior, graduate, L1, L2, L3, P3, P4, etc.) does not satisfy the class restriction associated with this section."

Note: When computing a student's class for registration purposes, the system considers the total number of credit hours the student has earned as well as the number of hours for which he/she is currently registered. For example, if a student has already earned 50 hours (sophomore) and currently is registered for 15 hours, the system will consider all 65 hours.

Explanation: You received this message because your classification does not match the classification restriction of the course.

What to Do: Find a different section that does not have such a restriction (if available) or contact your dean's office for assistance.

"CLOSED SECTION: This section is full. There is no electronic wait list. Choose a different section."

Note: Only some (not all) courses employ an electronic wait list.

What to Do: Find a different section that has available seats or contact your dean's office for assistance.

"CLOSED SECTION: This section is closed, but a wait list is available. Select 'Wait Listed' from the Action pull-down menu to the right and click the Submit button to add your name to the wait list."

Explanation: The section for which you attempted to register has no available seats. However, an electronic wait list is available.

What to Do: If you'd like to add yourself to the wait list, select the "Wait Listed" option from the "Action" pull-down menu to the right of the section, then click the "Submit" button. Or you may find a different section that has available seats. Contact your dean's office for assistance.

Note: Please do not wait list yourself for a section of a course for which you are already registered. Please also do not wait list yourself for multiple sections of the same course. If you wait list yourself for multiple sections of the same course or wait list yourself for a section of a course for which you are already registered, you are subject to being removed from all wait lists. There is no mechanism that will automatically place you into the class if a seat becomes available. The wait list will be managed manually by the corresponding department or dean's office.

"COREQUISITE ERROR: A corequisite (such as an associated lecture or lab section) exists for this class. Register for the corequisite at the same time that you register for this class."

Note: Two classes are corequisites of each other when both must be registered for at the same time. An example is BIO 012 and BIO 012L. In some cases, a specific section of one course must be taken with a specific section of the other course. In such cases, the matching CRN will be displayed in the error message.

Explanation: You might have received this message because you did not attempt to register for both sections at the same time. Or, you were unable to add one of the sections (perhaps one of the sections was full) and were consequently prevented from registered for the entire set.

What to Do: Ensure that seats are available in both of your desired sections of the course and ensure that you have met all prerequisites and other registration restrictions, then try registering for both sections again. Contact your dean's office for assistance.
"INSTRUCTOR APPROVAL"

**Explanation:** Students who wish to register for this course must receive the primary instructor's approval before being allowed to register.

Then try registering for all sections at the same time. Contact your dean's office for assistance.

**Note:** Some field-of-study restrictions are in effect only during the initial registration period (approximately the first two weeks of registration) and may be removed from the section after the initial two weeks of registration.

**What to Do:** Be patient, or find a different section that does not have such a restriction (if available). Contact your dean's office for assistance.
