

Faculty Student Ratios -- Fall 2012

Student/Faculty Ratio Calculations

	FTE Stud	FTE Fac		2012 Ratio	2011 Ratio	2010 Ratio	2009 Ratio	2008 Ratio
Undergraduate: Undergrad Students/Undergrad Fac	3248	281	=	11.56	12.09	12.80	13.47	13.78
Total (all FTE students/all FTE Fac)	4560	353	=	12.93	15.57	14.24	14.70	14.62

Other Calculations

Grad (Law, PharmD, Education and Business and Public Admin.)	1312	72	=	18.31	18.19	19.97	18.83	17.41
Law Only:	408	35	=	11.55	11.64	11.55	13.61	13.49
Pharmacy: All FTE PharD (DP1-4)/All FTE Pharmacy Fac.	436	38	=	11.37	12.50	12.52	12.30	12.93

Note: Graduate faculty=faculty who teach only graduate students.

- The Grad and PreProf and Grad only FTEs are of questionable value. This is true for two reasons. (1) many faculty teach both undergraduate and graduate students. Since these faculty are not included in the Graduate calculations, the Student/Faculty Ratios for graduate students are artificially inflated. (2) However, there also are many education graduate students.

Graduate faculty=faculty who teach only graduate students, law faculty, and ft pharmacy faculty who teach only in the professional years.

Beginning F07 undergraduate part-time faculty includes administrators/staff who teach in addition to other full-time duties.

Other includes full-time administrators and staff who are teaching and part-time faculty outside of a college/school.

Full-Time Equivalent Students (1st and 2nd year Pharmacy included with Undergrads)
