Honors at Graduation

Students who have attained academic excellence and high scholastic achievement on the basis of cumulative grade point average of 60 or more undergraduate hours at Drake University are recognized with the following honors:

- magna cum laude — Students who have achieved a grade point average between 3.70 and 3.89

Transfer students who have fewer than 60 hours may receive honors based on criteria outlined in the Drake catalog.

Students in the Honors Program earn University Honors by completing 19 credit hours in honors seminars, conducting and presenting a three-credit Honors senior thesis project, and achieving a 3.2 or higher cumulative grade point average.

The Academic Costume

The pageantry and dress of the University commencement have been inherited from the medieval universities of the 12th and 13th centuries. Academic life as we know it today began in the Middle Ages, first in the Church and then in the guilds. The teaching guild was the Guild of the Master of Arts, where the Bachelor was the apprentice of the Master and the dress was the outward sign of privilege and responsibility.

Principal features of academic dress are the gown, the cap, and the hood. It early became necessary for universities to set rules to preserve the dignity and meaning of academic dress. Both Cambridge and Oxford since the 15th century have made academic dress a matter of university control even to its minor details, and have repeatedly published revised regulations. American universities agreed on a definite system in 1895. In 1932, the American Council on Education presented a revised code. In 1959, the Council appointed a committee on academic costumes and ceremonies. Since 1960, the revised guidelines have provided guidance for the latest developments in higher education—the Associate in Arts and the Associate in Science degrees granted by the community and junior colleges. The Specialist in Education degree also is recognized and regulated by the latest revisions in the code for academic dress.

THE GOWN

The flowing gown comes from the 12th century. While it originally may have been worn as protection against the cold of unheated buildings, today it has become symbolic of the democracy of scholarship, for it covers any dress of rank or social standing underneath. It is black for all degrees with pointed sleeves for the bachelor's degree; long closed sleeves with a slit at the arm or wrist for the master's degree; and full bell double sleeves for the doctor's degree. Bachelor's and master's degree gowns have no trimming. For the doctor's degree the gown is faced down the front with velvet and has three bars of velvet across the sleeves, in the color distinctive to the faculty or discipline of the degree. The code allows institutions to adopt their own design and color that better expresses the individuality of the institution.

THE CAP

When Roman law freed the slave, he won the privilege of wearing a cap. And so the academic cap is a sign of freedom of scholarship and the responsibility and dignity with which scholarship endows the wearer. Old poetry records the cap of scholarship as square, to symbolize the book. In the 15th century, some caps were stiff, some soft, some square; and some round with a tuft in the center. The tassel used today is an elaboration of the tuft. While some institutions still use the round cap, most have adopted the mortar board style, which comes from Oxford. A different style, called the Cambridge cap, resembles a large beret and is appropriate for doctorate degrees only. The color of the tassel denotes the discipline. Those holding doctorate degrees are entitled to wear metallic-gold tassels.

THE HOOD

The hood is trimmed with one or more chevrons of a secondary color on the ground of the primary color of the college. The color of the facing of the hood denotes the discipline represented by the degree; the color of the lining designates the university or college from which the degree was granted.

The colors associated with the different disciplines are as follows:

Agriculture — Maize	Science — Golden Yellow
Athletic Training — Sage Green	Education — Light Blue
Journalism — Crimson	Music — Pink
Philosophy — Dark Blue	Social Work — Citron
Arts, Letters, General Studies — White	Fine Arts — Brown
Law — Purple	Nursing — Apricot
Physical Education — Sage Green	Occupational Therapy — Slate Blue
Business and Commerce — Drab	Speech — Silver Grey
Library Science — Lemon	Forestry — Russet
Public Administration — Peacock Blue	Pharmacy — Olive Green
Economics — Copper	Theology — Scarlet
Medicine — Green	

The Ceremonial Mace

Since the Middle Ages, the mace has been used in the courts by rulers to signify their power and authority. When placed on the rostrum, it indicated that the governing body was in formal session. The ceremonial mace is carried by a mace bearer or by the beadle, an official in the British university who leads the academic procession. The symbol has been adopted in American higher education and is carried by the marshal of the University at official academic convocations.

The ceremonial mace was carried in the academic procession of Drake's annual commencement ceremony for the first time in 1983. The mace and stand were created by Professor Emeritus Condon Kuhl, then professor of art at Drake University. The mace is handcrafted from ebony and overlaid and appointed with silver. It measures two and one-half feet in length and weighs about five pounds.
