

Extension Classes

The Extension Division, located in the School of Education, coordinates off-campus classes across the state of Iowa. A variety of courses is scheduled each semester at locations across Iowa. For information on extension classes, call 515-271-2182 or visit <http://www.drakecontinuinged.com>. Courses taken through the extension division of the School of Education may lead to endorsements or may be used in some master degrees for licensed educators. In addition, several distance learning courses are available through the extension office in online or video formats for those who wish to renew teaching licenses or advance by credits on local salary schedules.
