Total Semester Credit Hours			22.5	Total Semester Credit Hours		19
Total Program Hours: 227.5						

Program Notes:

RECOMENDED SUMMER COURSEWORK: Students who wish to complete both degrees in the four professional years will need to plan to complete MBA courses during the summer sessions. This program requires a careful selection of courses for the MBA degree as electives in the pharmacy curriculum. Students may enroll in additional summer coursework or complete final MBA courses after PharmD completion.

A total of 211.5 credits are required to complete the pharmacy degree.

General Education Electives: Students who do not meet the General Education Articulation Agreement must complete the [Drake Curriculum](#) general education requirements (Areas of Inquiry) and other general elective credits for a total of 26 credits. Area of Inquiry (AOI) courses not fulfilled by curricular requirements are: Artistic Literacy, Global and Cultural Understanding, and Historical Foundations (9 credits).

Pharmacy Professional Electives: Five (5) credits are required and fulfilled by MBA coursework.

Professional Electives Policy: Core curricula of CPHS degree programs may require professional elective courses that permit exploration of and/or advanced study in areas of professional interest within the student's primary degree. Professional electives provide the student with an opportunity to not only pursue areas of intellectual interest, but also to develop an individual "brand" that may benefit them in their professional or academic future. Students who desire to have a non-approved electives count toward professional elective credit should apply for an exception to program policy prior to taking the course whenever possible. Professional electives must be taken for a grade unless the course is designed as credit/no credit. Students should refer to their degree audit for determination of the total number of required professional electives. Students should review the [student handbook](#) for the complete professional elective policy and details specific to their degree program.

Following completion of 90 credit hours and admission into the MBA program, students may enroll in MBA course work. Additional information regarding the application process and MBA program may be found at drake.edu/mba/.
