

The economics program offers the opportunity to study prices, markets, and incentives (microeconomics) and economic growth and business cycles (macroeconomics). The BSBA in Economics prepares students for a career in business. The BA in Economics allows time for a second major in Political Science, International Relations, etc. and is popular with students planning to attend law school. Students planning to attend graduate school in economics should choose the major in Quantitative Economics.

For students entering Fall, 2019 or later
