Friday, March 1, 2019

5 p.m. | Jennie Zwagerman and Kevin Boot

(Boxed meal provided)

- Identify why risk management matters throughout the supply chain and how compliance and risk management are separate, but complementary
- Discuss the relevance to day-to-day operations, and beyond the legal team
- Agenda for the rest of the weekend

5:30 - 6:30 p.m. | Background

- Biotech in ag/food systems
- Regulatory agencies and various roles in the U.S.
 - Government/public regulatory bodies
 - Third party systems
- Penalties/impact of non-compliance and/or faulty risk management
 - Examples from recent years
- Use of biotech in food/ag in international markets
- International regulatory schemes, challenges, and trade concerns

6:30 - 6:45 p.m. | Break

6:45 - 7:30 p.m. | Continue regulatory framework discussion

7:30 - 8 p.m. | Set forth two scenarios for use on Saturday

Saturday, March 2, 2019

9 a.m. | Welcome and review

9:15 - 10:30 a.m. | Discussion of aspects of compliance throughout the supply chain

- Private/government/insurance – expectations and requirements of each when it comes to managing risk and complying with rules/regulations
- Issues in animal biotech
- Business models of risk management and training
- International/domestic emerging issues
- Advising clients
- Planning for an uncertain future in ag markets
- Identifying risks within current/future supply chain and tracking regulatory changes

10:30 - 10:45 a.m. | Break

10:45 a.m. - 12:15 p.m. | Continue discussion

12:15 - 1:30 p.m. | Lunch and featured speaker

1:30 - 2 p.m. | Small groups breakout and assignment of case studies/issues of discussion

2 - 3 p.m. | Small groups

3 - 3:15 p.m. | Break

3:15 - 4:30 p.m. | Panel of presenters/discussion of hypotheticals and issues identified in small groups
