MSLD 214 DESIGNING, DEVELOPING, & DELIVERING LEARNING

- **Course format:** Online, includes weekly modules and Zoom meetings
- **Zoom meetings:** Three Friday-Saturday sessions, 02-12 and 02-13; 03-12 and 03-13; 04-23 and 04-24
- **Fridays 6-8:30 pm and Saturdays, 9 am to 1 pm**

Designing, Developing, and Delivering Learning is a three-credit hour course and part of the Talent Development track of the MSLD. You will learn how to design and facilitate highly interactive and creative workshops. By the end of the course, you will be able to:

- Apply the ADDIE model (analysis, design, development, implementation, and evaluation) to build a 2-hour workshop.
- Use learning objectives as a basis for presentation and learning design.
- Describe and apply a “formula” for faster instructional and presentation design.
- Select learning strategies or methods that match the presentation or program objectives, audience, and align with best practices in design.
- Evaluate existing instructional materials.
- Adapt or develop a game or simulation to match training or presentation objectives.
- Demonstrate public speaking best practices in a short demonstration.
- Demonstrate sound facilitation practices debriefing activities and involving participants in discussions.
- Transfer to an online environment the interactive components learned in the class.

Even though the course is part of the Talent Development concentration, it is useful for anyone who wishes to:

- Enhance their creativity.
- Hone their public speaking and facilitation skills.
- Design workshops and presentations that work with their personality and style.
