Faculty Tutorial: Configure Panopto

Purpose: To show instructors how to provision and configure Panopto within a course in Blackboard.

Refer to this Knowledge Base article on Configuring Panopto for a Course for screenshots. Replace Steps 1 and 2 with this: Click Panopto in the course menu to begin.

Summary of Steps
If you don’t need screenshots, follow these steps to provision and configure Panopto in your course.

1. Click Panopto in the course menu.
2. Click the Configure button.
3. Click Add Course to Panopto button and wait for the next page to load.
4. When the Configure Panopto Connector page loads, click OK.
5. When the Available Folders / Selected Folders display, simply click the Submit button to finish.
