Dose 1: _____ Dose 2: _____ Dose 3: _____

Hepatitis A Series:

Dose 1: _____ Dose 2: _____

Gardisal (HPV vaccine):

Dose 1: _____ Dose 2: _____ Dose 3: _____

Strongly Recommended if Living on Campus

Meningitis (Menactra):

Meningitis is an infection of the fluid surrounding the brain and spinal cord that is caused by a virus or bacteria. Bacterial meningitis can be severe and cause organ damage and death. **The Meningitis vaccine is recommended for college freshmen living in residence halls.**

To make an informed decision about receiving the vaccine it is important to read the information provided at the following websites:

www.cdc.gov/vaccines/hcp/vis/vis-statements/mening.html
or
www.acha.org/topics/meningitis.cfm

Dose 1: _____

Dose 2: _____ (if Dose 1 was given before age 16)

If you have **not** received the meningitis vaccine you may sign a waiver: I am 18 years of age or older or the parent of a minor child. Drake University has provided me information explaining the risks of meningococcal disease and I am aware of the effectiveness and availability of the vaccine. I do not choose to get the meningococcal vaccine at this time.
