

CoLD Assessment Workshop

What are your students learning?

What are the knowledge, skills, and/or abilities that you hope students retain after they leave your program?

-

Of that list, what 1-2 areas would you focus on this year? How does this relate to the CoLD outcomes?

-

Where do you see evidence of student learning?

What are all the ways that students show evidence of their learning in your program?

-

Of this list, what are the ways that give you a window into student learning across the entire program or experience, versus specific to one course or activity?

-

How do you know students are learning?

Summarize what you have learned.

-

So what?

What does your findings mean for the program?

-

Now what?

What does this mean for the program? How can we maximize students' strengths and provide structure to work on areas of improvement?

-
