* This count represents a point-in-time headcount of full-time faculty following specific methods for external and internal reporting purposes. Multiple factors will impact variation across years (e.g., point-in-time, open vacancies, method used to temporarily staff vacant positions).

** The decline in full-time faculty headcount from 2013-14 to 2014-15 can be attributed to a combination of a few planned reductions, open vacancies, and fewer visiting faculty appointments covering vacancies.
