

President Name	
President Email	
Organization Email	data@drake.edu
Advisor	Professor Alanah Mitchell
Advisor Email	alanah.mitchell@drake.edu
Website/Social Media	@drakedataclub (Facebook Page)
Meeting Day & Time	Varies
Meeting Place	Aliber
Purpose	Our purpose is to educate ourselves and others about different types of technology, to build and create technology from scratch, to volunteer time to the Drake community when increased needs for technology help are required, and to network with other Drake students in a social setting and with professionals within the business community.
Approximate Time Commitment Each Week	1 hour every other week
Why YOU Should Join!	DATA is very low commitment, but has a lot of great benefits for members. Our whole purpose revolves around educating students about technology and its applications in the business world. None of the events are required; we encourage our members to come to the events that interest them or pertain to their careers. We cover a wide range of topics, such as: neural networks, Microsoft Office applications, data mining, data analytics, cybersecurity, agile framework, Python, R, computer ethics, and more! These events also double as a great networking opportunity so you can get connected to local companies and learn about internship opportunities or job shadows.
