

# Lambda Kappa Sigma

## What is LKS?

LKS is the oldest and largest professional pharmacy fraternity with the core mission to elevate women in pharmacy. Members of our organization are encouraged to build bonds with the Drake community and beyond through service and philanthropy. This is a great opportunity for students to expand their professional network and broaden perspectives. LKS is dedicated to supporting a global humanitarian and relief organization known as Project HOPE, with the goal of providing healthcare access to underserved communities around the world. HOPE WaLKS is an annual fundraising initiative started by our Nu Chapter to support Project HOPE, and has been adopted at the national level due to its wild success. In addition to networking opportunities, LKS promotes excellence through knowledge and integrity, two key traits Pharmacists must possess. Further development opportunities for students are provided through guest speakers hosted on campus and clinical skills workshops.
