

DRAKE UNIVERSITY ARTICULATION AGREEMENT

with

EASTERN IOWA COMMUNITY COLLEGE

*a course equivalency listing and
transfer planning guide for the*

AREAS OF INQUIRY DRAKE CURRICULUM

DRAKE GENERAL EDUCATION FOR ENTRY

SPRING 2025 AND LATER

This articulation agreement is based on the Eastern Iowa Community College 2024-2025 General Catalog and the Drake University 2024-2025 General Catalog. Changes may occur prior to your first semester at Drake University. In the academic advising appointment with your Drake University College or School representative, inquire about any changes and how they may be relevant to creating your degree plan and reaching your educational goals. Please refer to www.drake.edu for up to date information.

For more information please contact:

Drake University Office of the Registrar, 2507 University Avenue, Des Moines, IA 50311

Phone: 1-515-271-2025

registrar@drake.edu

Eastern Iowa CC and Drake Equates

To see how Eastern Iowa CC courses transfer to Drake please go to [TES Course Finder](#) and select Eastern Iowa Community College. Some of the Eastern Iowa CC courses are not currently offered or are no longer offered. Please make sure to check with Eastern Iowa CC that a course you might want to take is still being offered.

Areas of Inquiry (AOI)

The courses outlined will count towards satisfying the Drake Curriculum Area of Inquiry (AOI) requirements for majors in all the colleges and schools at Drake University.

Achievement guidelines are established in **ten Areas of Inquiry (AOIs)** that reflect the fundamentals Drake Curriculum principles and emphasize responsible decision making and self-discipline. **The approved Drake Curriculum course list for current Drake students can be accessed online at www.drake.edu/dc/**

In some cases, a course may be approved for more than one AOI. For example, BUS 185 is approved for both Critical Thinking and Values and Ethics AOIs. In those cases, the course may be applied in only one area. These courses, however, may simultaneously count toward a specific college or major requirements. Students are strongly encouraged to keep course syllabi from transfer institutions so that a closer evaluation may be made in the event that a course may need to be re-evaluated for its applicability to the Drake Curriculum plan.

Equity & Inclusion

Students cannot transfer in Equity and Inclusion. It must be taken at Drake.

ARTISTIC LITERACY (ARTS)

Drake students will learn to interpret and/or create art. Art constructs an essential and ongoing dialogue among individuals, cultures, and societies. Art—whether it takes visual, musical, or theatrical form—grows out of sustained intellectual inquiry. Drake students will recognize that art provides distinctive ways to engage the world and create expressions of the human condition. Courses that fulfill this AOI will engage students to achieve at least two of these student learning outcomes. Students will be able to:

- 1. Identify the characteristics of different artistic styles - visual, musical, or theatrical - and the factors that contributed to their establishment.*
- 2. Articulate the role played by an art form - visual, musical, or theatrical - in the development of culture(s) or as a distinctive expression of human identity and creativity.*
- 3. Articulate an analytical and reasoned understanding of a specific visual, musical, or theatrical art form and communicate this understanding in an appropriate form, whether oral or written or through the artistic medium itself.*
- 4. Demonstrate an understanding of the nature of the visual, musical, or theatrical arts through the application of or engagement with an art form.*

One course

ART	101	Art Appreciation	DRA	110	Intro to Film
ART	120	2-D Design	DRA	125	Intro to Play Analysis
ART	133	Drawing	DRA	162	Technical Theatre
ART	143	Painting	GRT	237	Packaging Design

CRITICAL THINKING (CRIT)

The Drake Curriculum makes an intentional effort to help students acquire the skills for rational analysis and argumentation. Critical Thinking should be purposeful, rigorous, self-reflective, and based on a careful consideration of evidence. Students learn to:

- *Clearly define a question or problem.*
- *Gather information that is relevant to that problem.*
- *Rigorously identify assumptions and preconceptions, including their own, that influence analysis of that problem.*

MKT	150	Principles of Advertising			

THE ENGAGED CITIZEN (CITZ)

Drake students will learn to participate effectively in democratic processes.

Democracy relies upon the participation of an engaged, knowledgeable and responsible citizenry. As preparation for active participation in public debate, Drake students learn to evaluate the mix of diverse values and interests that influence democratic decision-making. In a sophomore level course, students have the opportunity to bring diverse disciplines to bear in further developing the skills, knowledge, and dispositions that will lead them to be active stewards working for the common good of local, national and global communities.

This requirement will be fulfilled through coursework that challenges students to critically reflect upon the social, economic or political institutions and issues that shape the choices they will face as citizens. Instructors will provide students with opportunities to model democratic practices or public engagement through participatory activities organized in the classroom and/or community.

Courses that achieve this AOI will engage students to achieve at least two of the following four outcomes:

1. *Learn to evaluate the mix of diverse values and interests that influence democratic decision-making.*
2. *Establish skills, knowledge, or dispositions that lead them to be active stewards for the common good.*
3. *Critically reflect on the social, economic, or political issues that they will face as citizens.*
4. *Learn democratic practices or public engagement through participatory activities organized in the classroom and/or in the community.*

One course

POL	121	International Relations
SOC	115	Social Problems
SPC	101	Public Speaking
SPC	112	Public Speaking

GLOBAL AND CULTURAL UNDERSTANDING (GLOB)

Through understanding the interaction of knowledge, awareness, and cultural responsibility, Drake students will pursue the ideal wherein all persons have value and a voice. They will learn to examine aspects of society in relation to nationality, race, ethnicity, gender or culture, including the interactive nature of relations among people who differ according to these categories. Courses that fulfill this AOI will engage students to achieve at least two of these learning outcomes:

- 1. Identify and evaluate the fundamentals of international issues and events that shape the current world, influenced by geography, history, language, religion, and cultural values.*
- 2. Recognize and understand major issues, concerns, and problems of super-national or global scope (including, but not limited to, environmental concerns, international business, peace and war, underdevelopment, population growth and decline, human rights);*
- 3. Recognize and assess complexities within, and interactions among, current world nations, peoples, and cultures, and how these shape our global community.*

HISTORICAL FOUNDATIONS (HISF)

Historical Foundations: Drake Students will gain greater understanding of the historical foundations of the modern world and the interconnections of global cultures. Students will use historical analyses to study the interplay of multiple forces of change over time. Courses that count for this AOI will engage students to achieve at least two of these student learning outcomes. Students will be able to:

- 1. Demonstrate an understanding of the interplay of the fundamental historical forces (political, social, economic, cultural, scientific, and/or technological) that have shaped the contemporary world.*
- 2. Describe the historical processes that have contributed significantly to global change.*
- 3. Articulate an understanding of the histories of societies and cultures necessary to participate in an analysis of critical civic and global issues.*
- 4. Demonstrate critical reasoning skills necessary to analyze the lived realities of power and wealth differentials between industrialized and developing areas of the world.*
- 5. Reflect upon the nature of history itself as a product influenced by a nexus of forces, interests, and understandings, and on their own place within that historical context.*

INFORMATION LITERACY (INFO)

Information Literacy: Drake students will learn to acquire, analyze, interpret, and integrate information, employing appropriate technology to assist with these processes, and to understand the social and ethical implications of information use and misuse. Drake students will use appropriate sources, including library and internet resources, to process and evaluate information. Students will gain an understanding of the social and ethical issues encountered in a networked world, an ability to assess the quality of information, and learn appropriate ways to reference information sources. Students will be able to:

1. *Navigate and integrate scholarly resources into their research and reflection.*
2. *Articulate the social and ethical implications of information use and misuse.*
3. *Evaluate information resources and identify quality resources relevant to the problem or issue investigated.*
4. *Select and employ the appropriate method and data for disciplinary research, problem-based learning, experiential-based research, and/or reflective/integrative coursework.*
5. *Articulate the basic implications of information use and misuse related to issues of academic honesty and plagiarism and pursue their educational goals with a high level of academic integrity.*

COM	140	Intro to Mass Media
CIS	171	Java
EDU	255	Technology in the Classroom

QUANTITATIVE LITERACY (QUAN)

Drake students will learn to reason with the symbols and components of mathematical languages as well as effectively use the principles that underlie these operations. Courses that satisfy this requirement will have mathematical reasoning as their principal focus. They may also address questions that engage learners with the world around them and help them to analyze quantitative claims that arise from the study of civic, political, scientific, or social issues. Quantitative literacy courses may be focused on the mathematical needs of a specific discipline or on a specific interdisciplinary issue or problem. These courses will engage students to achieve these student learning outcomes. Students will be able to:

1. *Analyze and present solutions to problems using symbols and components from mathematical languages and their underlying principles.*
2. *Identify and execute appropriate mathematical operations for a given question.*
3. *Evaluate claims based upon mathematical arguments.*

SCIENTIFIC LITERACY (LIFE, PHSC) For catalogs before Fall 2024

Scientific literacy is crucial for understanding the issues that affect the future for all people, locally, nationally, and globally. Drake students will gain a basic understanding of content, methods, and contributions of science through courses rooted in the content of the life/behavioral and physical sciences. Through significant exposure to experiment and theory, students will be able to meaningfully interpret and evaluate scientific information for personal and professional applications as engaged citizens. All courses that fulfill this AOI will engage students to achieve basic scientific literacy; individual courses will pursue the additional outcomes as appropriate to their disciplinary or interdisciplinary focus. Drake students will complete two courses in this area of inquiry, including one in the life/behavioral sciences and one in the physical sciences. At least one course taken for this AOI will include a laboratory or field experience.

Choose two, one from each category and at least one with a lab

SCIENTIFIC LITERACY (SCI) For catalogs after Fall 2024

Issues that affect the future for all people, locally, nationally, and globally. Drake students will gain a basic understanding of content, methods, and contributions of science through courses rooted in the content of the life/behavioral and physical sciences. Through significant exposure to experiment and theory, students will be able to meaningfully interpret and evaluate scientific information for personal and professional applications as engaged citizens. All courses that fulfill this AOI will engage students to achieve basic scientific literacy; individual courses will pursue the additional outcomes as appropriate to their disciplinary or interdisciplinary focus. Students will be able to:

1. *Apply the methods of science for the generation, collection, assessment, and interpretation of scientific data and/or phenomena.*
2. *Use scientific methods and ways of thinking to solve problems.*
3. *Describe scientific theories on cognitive and behavioral, intellectual, or physical development.*
4. *Articulate the interrelationship of the development of human societies with the natural world around them.*
5. *Articulate the relevance of science to the global community in order to serve as active stewards for the natural environment.*

VALUES AND ETHICS (VE)

Students will learn to recognize ethical issues and to reflect critically upon the demands of conscience. They will develop as reflective practitioners with an understanding of the larger goals of stewardship inherent in their professional endeavors and have a sense of obligation that extends beyond the self. They will develop an understanding of the skills and knowledge necessary to anticipate the consequences of actions as well as an understanding of the dispositions necessary to develop a commitment to ethical conduct. Students will develop the basic tools required to question themselves and others in a responsible manner and to evaluate the ethical implications of both collective and personal choices.

Once course

BUS	180	Business Ethics	CRJ	101	Ethics in Criminal Justice
BUS	185	Business Law I	PHI	105	Introduction to Ethics

WRITTEN COMMUNICATION (WRIT)

Drake students will learn to read with discrimination and understanding and to write persuasively. Drake students will learn to shape their writing according to subject, purpose, medium, context and intended audience. This area of inquiry may be satisfied by a single course, provided that writing is a significant component of the course, significant attention is directed towards the teaching of writing, and a significant portion of the student's grade focuses on the quality of writing, independent of the subject matter.
