

DRAKE IS GREEN

COMPOST FROM YOUR DORM!

AN INITIATIVE OF DEAL AND THE SPROUT GARDEN

1

COLLECT YOUR COMPOST

We suggest using a tupperware with a lid. Place newspaper at the bottom to absorb excess liquids.

Look at our [What Can We Compost poster](#) for what you can and can't add.

2

BRING COMPOST TO KITCHEN

Place your compost in the composting bucket near your residence hall kitchen. Be sure the lid is back on all the way!

If you used newspaper, you can toss that in! Please do not out in cups, forks, or napkins.

Each week, volunteers will collect the compost so it can be used in the Sprout Garden. Want to volunteer? Questions or concerns? Email compost@drake.edu
