Happy Holidays!

Dean's Note

Dear all,

This is the last A&S Newsletter of 2019! Let me start by thanking you for your patience and your hard work this term. We are all looking forward to a wonderful break and to seeing you all back in the spring. I hope you are all enjoying the holiday season, sharing good times with loved ones. I wish you a great start of the new year. See you in 2020!

Thank you all for your wonderful job this semester, for your unwavering commitment to our students and the college, and for pointing our students in the new direction if they ask!

Recall that the new student space in 274 is completely furnished with tables and comfy seating. Phone numbers will be the same, just more visible! Down the road we will take out the unused lockers at the end of the hallway and together we have created a Student Support Wing that is somewhat easier to find or at least found in 274, Maria in 272, and Ashley in 271. By moving Alina, Mary Beth and Natalie closer to the 2nd floor of FAC. Alina and Mary Beth are now located in FAC 278 and 279, Natalie can be found in 275.

When you come back in 2020, you will notice that we have moved around some offices on the 2nd floor of FAC. My office is now in 270 and you will also find the student resources there. There is a new and improved Student Support Wing that will help you.

A&S Important Dates

Student Award Opportunities

From OnCampus:

Getting Ahead in the Job Market: Analyze Your Current Situation and Strategize... Ask Dr. Ashley Kothari, Assistant Professor in English.

Spotlight!

In Professional Practice: The college's new Excellence and Impact Fund was launched last fall with the support of the faculty and staff, as well as the dean and the provost. The fund is designed to support faculty and staff in their professional development and to enhance the college's reputation for excellence.

Student Award Opportunities

The college's Student Award Opportunities are updated regularly and include a variety of awards for students in the College of Arts and Sciences. These awards are designed to recognize and support students who are excelling in their academic and extracurricular pursuits.
