Drake University Independent News

We are the satire magazine on campus, and release a magazine of political, lifestyle, and drake-oriented stories once a semester. We also rely heavily on our social media pages (drake.duin on instagram and DrakeDuin on Twitter) and website (duinmag.com) to provide satire before the release of the physical mag. The magazine is mostly creative writing works, and writers and designers of all experience levels are welcome to join - they don't need to be part of the J-school. The vibe of the magazine is fun, loose, creative, satirical, and a little subversive - a mouthpiece for the student body when it comes to issues on and off campus in a manner that is less formal than other publications such as TD and Drake Mag.
